Premier Stewart Visits the Pass

The Pass this week enjoyed a flying visit from Premier Stewart. Hon. Archie McLean, minister of public works, and Hon. C. R. Mitchell, provincial treasurer, and minister of municipal affairs.

Arriving by Monday morning's express, they detrained at Crow's Nest, where they were met by Mr. Ainsworth, who took them by motor down through The Pass for the purpose of inspecting the work being done to roads in this portion of the province. Reaching Blairmore at noon, the party were met by a deputation of Pass citizens, who had made arrangements to entertain them at lunch. Luncheon at the Cosmopolitan hotel was partaken of by about seventy people, representative of the different towns of The Pass.

The chair was occupied by Mr. J. E. Gillis, in the absence of Mayor Ewan. After lunch, the premier briefly addressed the gathering. Brief remarks were also heard from Hons. McLean and Mitchell.

Mrs. Stewart, Mrs. Ainsworth and Miss McKenzie accompanied the party, who left at 2:30 for Pincher Creek and other points in the south.

The premier promised to pay The Pass a visit later in the fall, when he hoped his visit might be far more formal and interesting. He was pleased on this occasion to have had the privilege of making a personal visit and tour throughout this district and to satisfy himself that conditions here were not as bad as reported recently in the daily press of Calgary. He looked forward to a dry vote and to better conditions in the mining and other labor centres.

Duke of Devonshire To Stop at Blairmore

Word has been received that the Governor-General had decided to include Blairmore as a stopping point in his itinerary next month. The vice-regal party will spend all day of October the 10th at Fernie, and arriving here at 2:30 a.m. will spend the 11th in Blairmore. Upon receipt of this information, the organization of local committees was proceeded with, and a rather elaborate programme will be staged for the occasion of the first visit of His Excellency to this district.

Town Council Buys Cement Block

The town council has purchased the large cement building on Eighth Avenue for a consideration of \$2500 for the purpose of secretary's office, etc. The basement will be fitted for the storage of fire-fighting apparatus. The first floor comprises secretary's office, jail and kitchen. The upper floor will be converted into rooms for firemen.

ANGELICAN CHURCH

Preliminary Notice

The Harvest Thanksgiving Service will be held on Sunday, October 3rd, at 3 p.m. A cordial welcome is extended to all.

I. O. D. E.

Those interested in the Daughters of the Empire are asked to attend a meeting in the town hall at 3 o'clock on Wednesday, September 29th. Mrs. Bryce Saunders will be here to organize the local chapter.

W. T. Eddy and T. Madden were up from Lundbreck on Saturday last, to attend the funeral of the late Mrs. R. Green.

Will Build Cement Bridge

The regular meeting of the town council tonight was attended by Mayor Ewan, Councillors Boelke, McLeod, Dutil, Gillis, McDonald and Montalbeti, Secretary Wright and a balcony of spectators.

Several accounts were passed for payment, and several communications were disposed of. The petition of residents of Cement Street for a street light was considered.

Communication from the secretary of the school district, asking for a refund of monies collected as school taxes, was tabled.

On motion, the tender of Enrico Pozzi for the construction of a reinforced concrete bridge across Lynn Creek on State Street was accepted, the work to be completed before frost would interfere.

Councillor Gillis gave notice that at the next regular meeting of council he would introduce an amendment to the waterworks by-law.

Death of Miss C. Sunstrum

We regret to learn of the death of Miss Christina Sunstrum, which occurred at Calgary on Sunday last, following a brief illness.

Miss Sunstrum is a sister of Mrs. J. C. Boudreau, formerly of Frank, but now of Calgary. She was but twenty-six years of age. Prior to taking up residence in Calgary some seven years ago, Miss Sunstrum with her two sisters was engaged as a "helio" girl in the Blairmore central telephone exchange, during which period she became very popular.

Funeral was held at Calgary on Tuesday morning, service being held in St. Mary's cathedral, and interment took place in St. Mary's cemetery.

A concert by local talent will be given at the Union church this Friday evening. Don't miss it.

We understand that Fernie sports contemplate coming to Blairmore some time near Thanksgiving Day to play a prize football match, for \$1000.

Coleman is staging the Private Peat Chautauqua, the first programme to be on the afternoon of Wednesday, October 6th. Programmes will be staged at the opera house daily, October 6th to 11th inclusive. Watch for announcements.

Emperor Pick will give a free smoker to everyone in The Pass at the opera house on Friday night of this week, and extends a hearty invitation to every man and woman to attend. The occasion is partly to celebrate the anniversary of the Italian entering Rome and to continue the feast of rejoicing occasioned by the success of the Blairmore football team this season.

Blairmore won the coveted cup from Fernie on Sunday last in the hardest fought football game recorded in this part of Alberta. Offside Mulligan, as usual, did the trick, and today Mulligan is held high in arms and esteem as the idol of The Pass. The cup was conveyed to Blairmore by "special train" on Monday night and was immediately mounted in a conspicuous place.

Favor Smaller Fire Hose

LOS ANGELES, Sept. 14.—Use of inch and a half hose in preference to two inch and two and a half inch in fighting fires is growing in favor throughout the west, according to statements made at the second day's session of the convention of the Pacific Coast Association of Fire Chiefs. Several of the chiefs declared they were obtaining surprising results with smaller hose.

Discussion of the subject was started by the reading of a paper prepared by Chief B. F. Dowell of Portland, Ore. Chief Dowell declared the inch and a half hose should be added to the equipment

WANTED

Information as to the present whereabouts, if living, or as to his decease, if dead, of John D. Monaghan. Was last heard of in spring of 1906, in vicinity of Blairmore, Alberta, or Fernie, B. C.

Please communicate with R. H. Hubbs, Picton, Ontario. Solicitor for Rose Monaghan, wife of said John D. Monaghan.

Score a goal for the "Offices Concert Party" by buying your ticket for next Monday evening's show.

The Coming Liquor Referendum

What is regarded by many as the final battle in the long war waged against the liquor traffic in Canada will be fought at the ballot boxes in Manitoba, Saskatchewan and Alberta on the 25th of October. The necessary machinery for the taking of the referendum vote on that date has already been set in motion and the compilation of the lists for qualified voters is in progress. The opposing forces are likewise lining up for the final test of strength.

Apart altogether from the opinions which may be held by readers of this paper on the question at issue, namely, whether bone-dry prohibition should be made effective or not, it is clearly the duty of all citizens qualified to vote to make certain of the fact that their names are properly included in the voters' lists, and, equally so, it is the duty of all, regardless of the opinions held by them, to record their votes on October 25 on the question being submitted to the people.

In these three Prairie Provinces, prohibition of the sale of intoxicating liquors for beverage purposes has for some years been in effect. There is, however, nothing to prevent a person in any one of these Provinces from buying liquor in another Province, and having it shipped to him for his personal use. The result is, of course, that while there is prohibition in name, and actual prohibition of local sale, there is no truly effective prohibition of the use of intoxicants.

Through the votes cast by them in the referendum on October 25 the men and women of Western Canada are to decide whether, in addition to prohibition of local sale within a Province, there shall be prohibition of importation of liquor into any one Province from any other Province or country. In other words, whether it shall be made illegal for any person to obtain liquor in any manner whatsoever, except in very limited quantities on a doctor's prescription.

In the referendum on October 25 the following form of ballot will be used:

Shall the importation or bringing of intoxicating liquors into the Province be forbidden?	NO
Shall the importation or bringing of intoxicating liquors into the Province be forbidden?	YES

The voter who is in favor of absolute prohibition will place an X in the space opposite the word "Yes"; the voter who is in favor of allowing liquor to come into the Province as at present will place an X in the space opposite the word "No." In other words, a person votes "Yes" if he favors bone-dry prohibition; he votes "No" if he desires that importation shall continue.

Without presuming to say in this article how people shall vote, or even expressing an opinion as to the course of action which in the light of past experiences would seem to be the wisest course to follow in the interests of all, one thing can and should be said with all the emphasis that can possibly be laid upon it. It is this:

Men and women should mark their ballots in such a way as to express their honest convictions on this question in order that the vote on October 25 may be a true expression of the will of the people. A vote for bone-dry prohibition should be a positive declaration on the part of the voter that he or she will absolutely refrain from the use of intoxicating liquors, that they will make no attempt to secure such liquors, that they will throw the whole weight of their influence in the direction of seeing that the law they thus ask for is lived up to and rigidly enforced. "Yes" vote should be a pledge on the part of the voter to assist the officers of the law to efficiently enforce that law.

The time for camouflage is past. There should be no more hypocrisy, with a person voting one way and acting another. If the majority vote is to forbid importation of liquor, then the Government and officers of the law should be bound to see that they can count upon the men and women who make up that majority to assist them in every way to make the law fully effective, and a success.

The man who votes for bone-dry prohibition and proceeds at the same time to stock up his cellar in advance with liquor is a hypocrite. The man or woman who votes for bone-dry prohibition, and later writes to the Government or the police stating that "So-and-So" is violating the law but that their names must not be used as informants and that they will not give evidence which may be in their possession in order to convict, is a coward and not a sincere prohibitionist.

The referendum vote on October 25 should be regarded as a clear-cut show-down on this question.

BUNIONS NO JOKE

Not to the man who has to move about, but a slight application of "Putnam's" softens the bunion and cures the bunion quickly. Just as good for warts, lumps and callouses is Putnam's Corn Extract. Use no other, 25c at all dealers.

The Rebound Courts.

Brigs—Ought a man to give up his strap in a surface car to a lady?—Certainly. If she is young and handsome, he may be forced to cling to her going around a curve.

Minard's Liniment Relieves Neuralgia.

The Real Question.

The Farmer—Ain't that a fine cow? The City Man—How many miles will she do on a gallon of milk?—Life.

Lots of women will give up easy jobs and good salaries for the sake of working all the rest of their lives for their board and clothes.

B.C. Free of Forest Fires.

British Columbia is free from forest fires and no more outbreaks are expected, according to a report of the forest branch of the department of lands. There were no less than 981 distinct fires this year, and to fight and to finish them it cost the Government \$183,080.

Peevish, pale, restless and sickly children owe their condition to worms. Mother Graves' Worm Expeller will relieve them and restore health.

Mrs. Cassidy—"Norah, Maguire is takin' on awfull! Her husband's got three years, but he can get wan off for good behavior."

Mrs. O'Brien—"Tell her to rest easy. Sure an' he never behaves himself."—Edinburgh Scotsman.

Many a man who is whole-souled on the surface wouldn't stand probing.

After all, there is a good deal of humanity in human nature.

Feeding Swedes to Sheep

Liability to Cause Scour When They Are Immature.

It is well for those who are going to feed swedes to be careful at first how they use them. When immature they are very liable to cause scour. The swede is rather a deceptive food, as size does not necessarily indicate its suitability for feeding. The most common cases of injury from feeding swedes are amongst sheep, as they usually constitute the main bulk of the food received.

What the exact injurious principle in unripe swedes is, is little understood, but there is no doubt about the danger. Those who buy in sheep at this time of the year should have a piece of cabbage to break them in to the new kind of food.

Cabbages are beneficial in two ways, they form a good intermediate food between grass and roots, and whilst the sheep are consuming them they allow the swedes to get ripe. The cabbage is always wholesome food, no matter how immature it may be, as it does not possess the injurious principles of the swede.—London Live Stock Journal.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them. Three boxes and I am quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Elevator Charges Up.

According to Hon. Geo. Langley, Minister of Municipal Affairs and Director of the Saskatchewan Co-operative Elevator Co., as a result of representations made to the Board of Grain Commissioners by the elevator men, a reasonable advance in storage charges that may be made by local and terminal elevators will be considered by the commissioners this year.

WHEN BABY IS CROSS

Mothers, when your baby is cross—when he cries a great deal and no amount of attention or petting cheers him—something is the matter. It is not the matter of little ones to be cross and peevish—the well child is a happy child. Give him a dose of Baby's Own Tablets and he will soon be well again. The Tablets are a mild but thorough laxative which regulate the bowels and stomach, banish constipation and indigestion; break up colds and simple fevers and relieve the other minor ills of little ones. Concerning them Mrs. Oscar Bedard, Ste. Sophie, Que., writes:—"Baby's Own Tablets are an excellent remedy for constipation. They relieved my little one when nothing else would, and I can strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Helium in Canada.

Prof. McLennan, who was sent to Canada recently by the British Admiralty to devise a method of securing helium from natural gases, has reported that Alberta alone can supply over ten million cubic feet of helium annually, and other parts of the Empire another two million cubic feet. This quantity, he estimates, is sufficient to maintain a considerable number of airships, that cannot be brought down by airplane attack in the usual manner. Helium is a rare element, with a lifting power second only to hydrogen, and is non-inflammable. It can also be obtained in generous quantities in New Brunswick.

Corns and warts disappear when treated with Hollo's Corn Cure without leaving a scar.

W. N. U. 134

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MAGIC BAKING POWDER

contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other.

Made in Canada. By Canadians For Canadians

The Color of Your Eyes

Where the Baby Gets His Blue Eyes From.

Where baby gets his blue eyes from is said to have been discovered by Dr. H. Bryn, of Norway.

After examining 834 persons, Dr.

Bryn found that when all the parents and grandparents had blue eyes, all the children were blue-eyed, while when some of the grandparents' eyes were brown, only about 90 out of 100 of the children had blue eyes.

If both parents had blue eyes only 70 per cent. of the children had eyes of the same color, the remaining 30 per cent. being blue. If one parent was blue-eyed and the other brown-eyed, blue and brown eyes were equally divided among the children.

How's This?

We offer \$100.00 for any cure of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System. Sold by druggists everywhere for fifty years. R. J. Cheney & Co., Toledo, Ohio. Price 75c. Testimonials free.

Fox Farming Pays.

What farm industry pays better than breeding foxes?

Last spring an average of four to a litter raised was reported from the ranches heard from. That means between two and three thousand dollars to a pair of foxes!

Some of the old-timers in the business have from seventy-five to two hundred youngsters on their ranches. As these men breed only foxes of good quality, it is safe to estimate the value of the pups at \$500 to \$750 apiece.

Evidently there is money in the business.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

Minard's Liniment For Dandruff.

One-half of the world envies the other half because it doesn't know how it lives.

Following in the footsteps of an idol man is expensive travelling.

Rivals the Spoonerville Line.

Passenger (impatiently)—Say, conductor, can't you have this train run a bit faster?

Conductor—Sir! I've been on this line 15 years and—

Passenger—Great guns! At what station did you get on?

The Four Man's Friend—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses more powerful concentrated power than one hundred times the quantity of many unguents. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Urges Learning German Language.

"Learn German!" is the advice former President Poincaré has given the French through the Association of Language Professors. He said:

"To dominate German science we must understand it. And to maintain the independence or the superiority of our literature, we must not close our eyes to foreign literature, not even that of Germany." M. Poincaré said German must be known by those who undertake the administration of the occupied regions and also to restore French to its proper place in Alsace Lorraine. Army officers recently were urged to leave German. The Government has reinstated that language in the officers' training schools.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Lumbago, Stiffness, Rheumatism, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin people, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoaceticacid of Salicylicacid. While it is well known that Aspirin means Bayer, manufacturers to assist the public against imitations, the Tablets of Bayer Compound will be stamped with their general trade mark, the "Bayer Cross".

Postum CEREAL

used instead of coffee means better nights and brighter days for every one when coffee disagrees

Postum Cereal should be boiled a full twenty minutes. Another form—Instant Postum is made instantly in the cup.

Both kinds are sold by grocers everywhere

Explosion Creates Havoc in New York's Financial District

New York.—A mysterious explosion in Wall street, near Broad, believed by trained United States Department of Justice and Police investigators to have been caused by an infernal machine, rocked the heart of New York's financial district, leaving death and destruction in its wake. At least 31 persons were killed, more than 200 were injured, the banking house of J. P. Morgan and Company, the sub-treasury and the assay office were partially wrecked and severely damaged in excess of \$1,000,000.

Two minutes after the explosion the stock and curb exchange had closed. Panic in confusion reigned in the heart of New York's financial district. Thousands of clerks and sightseers, many of them girls, fled in terror from adjoining structures. Scores fainted, fell and were trampled on in the crush.

The few police on duty in the district were unable to cope with the crowds who came in thousands and a hurry call for police reserves was sent to all downtown police stations.

Sub-treasury officials, fearing that an attempt might be made to rob the building, all the windows of which were broken, requested assistance of the militia authorities at Governor's Island and a company of soldiers were sent to guard the structure.

Hurry calls were also sent to all hospitals in the downtown section. New York and scores of ambulances were seen speeding through the narrow streets. Dressing stations were established in the lobbies of buildings nearby where the less seriously injured were given immediate treatment.

Evidence tending to confirm the theory that the explosion was caused by a bomb, or some other infernal machine came from several sources.

Chief Inspector Lacey reported that he had found conclusive evidence of the contents of the bomb, by finding a huge piece of iron and other evidences of T.N.T. scattered from the bomb, the iron evidently coming from window weight bars.

Warnings that radicals contemplated renewals of the bomb outrages were received over a month ago by eastern cities of the William J. Burns detective agency, according to a statement by Mr. Burns, who said he was convinced that the explosion was a pre-meditated attack and was not accidental.

Fire Chief Kenyon and officers from the bureau of combustibles also expressed the belief that the explosion was caused by a bomb, after examining fragments of metal found in the street in front of the Morgan offices.

Five members of the Morgan firm were in the building at the time of the explosion. Thomas Amery, Thos. W. Morrow, Elliott C. Bacon and George Whitney were in conference on the second floor of the Broad street side of the Morgan building. They were shaken up by the force of the explosion but all escaped without injury.

Big Increase in Canadian Trade

Trade for Five Months Reached Total of \$1,063,353,170.

Ottawa.—Although the grand total of Canadian trade for the five months of the fiscal year which ended on August 31 shows an increase of \$202,329,835, as compared with the same period in 1919, the value of Canadian merchandise exported declined by more than \$20,000,000. The grand total of Canadian trade for the five months' period of the present year was \$1,063,353,170, while in 1919 it was \$861,023,335.

The total value of Canadian exports during the five months this year was \$54,890,487, and during the same five months in 1919 it amounted to \$47,448,689, being a decrease for this year of \$20,000,000.

While exports are below those of last year, the figures issued from the customs department show a great increase in the value of goods imported into Canada, as compared with a year ago. During the five months ending with August 31, this year, the total value of goods imported into Canada was \$397,800,603, while last year, for the same period it only amounted to \$366,354,396. This is an increase of \$31,446,207. This year's duty on imports this year has already reached the figure of \$90,351,955, as against \$67,846,584 a year ago, an increase of \$22,505,371.

Less Cattle in Britain

Opportunity For Development of Canada's Export Meat Trade.

Ottawa.—A serious decline in the number of cattle in Great Britain is noted in a report received by the Department of Trade and Commerce from Harrison Watson, Canadian trade commissioner in London.

At the present time British herds number 5,397,000 animals, a decline of over ten per cent, as compared with the same period in 1919, and the smallest number recorded since 1903. The figures on sheep also show a decline of over eleven per cent, as compared with last year.

This information emphasizes Canada's opportunity for the development of the export meat trade, which was pointed out in a statement issued by H. S. Arkell, Dominion livestock commissioner.

Opinion of U.F.A. President

Says Economical Marketing of Wheat Would Offset Rate Increase.

Calgary.—"If the wheat board had been continued for another year, the whole of the increased burden of freight rates on wheat from the western provinces to Europe would have been more than offset by the saving which has been effected by the economical marketing of the wheat crop."

Such was the opinion expressed by H. W. Woods, president of the U.F.A., President Woods' estimate is based on the report of the Bureau of Statistics at Ottawa, of a total wheat crop of 258,000,000 bushels in the three prairie provinces. The average increase in the freight rates would have been offset in this manner, he stated.

Oil in Saskatchewan

Will Start Drilling on Canadian Side of Montana Border.

Regina, Sask.—An oil boom has struck Saskatchewan and Swift Current. Drilling operations are expected to start shortly on the Canadian side of the Montana border, south of Pontiac, Sask. There is wild excitement in portions of Montana and farms are being leased daily for oil testing purposes.

As the oil strata runs up to the Canadian boundary a move is being made by American promoters to lease some of the Saskatchewan ranch land to sink test holes.

Farmers and Tariff Commission

Grain Growers May Arrange for Expression of Views by Individual Farmers.

Regina.—While Norman P. Lambert, as secretary of the Canadian Council of Agriculture, presented the combined views of the various provincial farmers' organizations before the Tariff Commission in Winnipeg, it is altogether likely that each of these organizations will supplement these opinions at subsequent local sittings of the Tariff Commission.

This matter is under consideration by J. B. Musselman, secretary of the Saskatchewan Grain Growers' Association. Mr. Musselman is preparing a draft statement for submission to the executive for approval at its meeting with the intention of reading it to the commission here on October 11 and 12, providing it is sanctioned by the executive.

It is likely that the association will endeavor to arrange for expressions of opinion by individual farmers, and the opinions presented by Mr. Lambert and giving concrete illustrations of the effect of the present tariff on agriculture in the west. There is also some probability that some of the prominent retailers in the province will be invited to give evidence before the convention.

With reference to the retailers as a body it is understood that their views will be submitted to the commission at Ottawa by their Dominion organization when the commission returns east.

Visit Western Canada.

Toronto.—A party of delegates to the Congress of Chambers of Commerce of the British Empire will visit the western provinces and Pacific coast about the middle of October.

WOULD PREVENT FREIGHT CARS CROSSING BORDER

RAILWAYS PREPARING FOR HEAVY CROP MOVEMENT.

Must Keep Rolling Stock at Home to Guard Against Grain Blockade.

Ottawa.—In view of the particularly heavy crop movement from the western province during the next few months, extra precautions are being taken by the management of the Government and other systems of railways to keep Canadian freight cars on this side of the border.

At the present time there is a vast shortage in the United States of 600,000 cars and when a Canadian car is permitted to cross the line, it is practically impossible to have it returned. The daily charge for retained cars from Canada was some time ago increased, but this has made no difference, the American railways being quite willing to pay the extra charge for the use of the cars. The necessity of keeping Canadian rolling stock at home if a grain blockade is to be prevented when the eastward wheat movement is at its height, is recognized and even at the best there is likely to be considerable congestion it is thought.

Must Pay Debts

Government Will Collect Sums for Transmission to German.

Destination.

Montreal.—All debts payable by Canadian firms to German and other enemy firms at the time of the war which were unpaid, or payable from that cause are to be collected through the Canadian Government, according to a new ruling by the Government, and to be paid at full value of the German mark, irrespective of its present value. All amounts of over \$100 are being collected through the department of the secretary of state and are being turned over to the British Government to be transmitted to their German destinations. It was stated at the offices of the Canadian Manufacturers' Association that several firms have such debts owing, in some cases running into large amounts of money.

Railway Board Sitings

Dates Set for Western Tour of the Board are Announced.

Ottawa.—The Board of Railway Commissioners will hold the first sitting of its western tour in the City Hall at Winnipeg on the morning of Wednesday, September 29. The following morning it will sit at Saskatoon. The remainder of the itinerary is as follows: Edmonton, October 1; Prince George, B.C., October 4; Prince Rupert, B.C., October 6; Victoria, B.C., October 11; Vancouver, October 12; Vernon, October 14; Nelson, October 15; Calgary, Alta., October 20; Medicine Hat, October 22; Regina, Sask., October 23; Winnipeg, October 25; Fort William, Ont., October 27.

The application of the express companies for increased rates is to be taken up, at different points, as well as other cases which are set down for hearing.

French General Weds.

Paris.—Marshall Henri Philippe Pétain, commander-in-chief of the French armies in France during the later years of the great war, and the French-general whose work at Verdun made him a national figure, was married to Madame Hardon at the City Hall of the Seventh Ward of Paris, says the Petite Parisienne.

John McCormack Leaves Australia.

London.—A dispatch to the Exchange Telegraph from Melbourne says John McCormack, the singer, has cancelled all his Australian engagements and is leaving immediately for London in order to escape the disagreeable sentiments that he has been accorded in his Australian tour since he expressed himself, on the Irish question.

Would Exclude Japanese

Washington.—Exclusion of all Japanese immigrants was urged in a resolution adopted unanimously by the veterans of foreign wars, holding their annual encampment here. Amendments of the immigration laws was under discussion at the time.

SOVIETS ARE NOW CAUSING TROUBLE IN ITALY

TO GIVE LABOR MOVEMENT POLITICAL CHARACTER.

Metal Workers Are Getting Support From Soviet Russia to Enlarge Powers.

Rome.—The metal workers' movement was early taken advantage of by the supporters of Soviet Russia in Italy as the basis of a political movement to force Italian recognition of the Moscow Government, according to a document published by the Tribuna. The document, of which the Tribuna says it guarantees the authenticity, provides for permanent soviet conditions and is addressed to the Legion of Red Guards at Torre Annunziata, near Naples, asking the Legion to communicate with the greatest organization ever known.

"Taking the favorable opportunity afforded by the vast movement of the metal workers," the document added, "it has been decided to enlarge the movement, giving it a political character."

The document bore the signature, "Vella."

Milan.—The confederation of labor announces that it has no intention of waiting on the will of the masters.

The only solution possible is acceptance of the men's proposal for collaboration in the management of the various industries, and if the employers do not soon decide in this sense, it is declared that enormous measures will be adopted to intensify the agitation.

Gen. Wrangel Forces Soviets to Beat Retreat

Soviets Report Heavy Engagements With Poles in Kovel Area.

Paris.—New successes for the army of Gen. Wrangel, anti-Bolshevik leader in Southern Rumania, are announced in dispatches. On the Don River, Gen. Nazarov has cut the railway line from Voronezh to Tsaritsyn. The 34th Division, Bolsheviks, are reported to have retreated from their positions.

London.—Heavy engagements with the Poles in the region to the east of Brest-Litovsk and in the Kovel area in Volhynia are reported by the Russian Soviet staff in an official statement from Moscow.

Alberta's Big Crop

Bumper Yield of 1915 May Be Increased Four-Fold in Value.

Calgary.—The Herald says today: Alberta's wheat crop in 1915 was sixty million bushels, valued at \$30,000,000. In 1919, it yielded 34,575,000 bushels, valued at \$64,549,000. The largest federal official estimate of this year's crop is 82,972,000 which, taken at \$2.60 a bushel, will bring Alberta farmers the huge sum of \$215,722,000. This means in other words that the bumper yield of 1915 will this year be increased over fourfold in monetary value, assuming that approximately the present price of wheat holds.

Curlers to Sail on Dec. 30.

Montreal.—The Canadian branch of the Royal Caledonian Curling Club of Scotland announces that the team of 32, representing Canada, will leave for England on December 30 to take part in a series of matches with Scottish teams.

Saskatchewan Needs Nurses.

Regina, Sask.—There is a scarcity of nurses and material for making nurses, not only in Regina, but all through the province of Saskatchewan, according to officials of the Regina General Hospital.

Want Serbia to Withdraw Troops.

Washington.—President Wilson and Premier Lloyd George and Millerand have been by the Albanian government to take steps to compel Serbia to withdraw its troops from Albanian territory.

Reorganize Anzac Navy.

London.—Messages from Sydney say that the Australian navy reorganization is progressing. Several ships will be acquired and it is proposed to abandon the naval college, though this is strenuously opposed.

W. N. U. 1354

U. S. Committee Will Attempt to Probe Irish Atrocities

More From Income-Taxes

Anticipate Increase From Higher Rates and Improved Methods of Collection.

Winnipeg.—A special despatch to the Free Press from its Ottawa correspondent reads: A \$15,000,000 increase in the receipts of the federal income tax is estimated for the current fiscal year which ends on March 31 next. Last year's total revenue from this source approximated \$20,000,000. This year it will approximate \$35,000,000.

To the higher rates, a wider incidence and improved methods of collection are attributed the increase. Under the former act prosecutions were both difficult and costly. Under the act as amended last session, they have been much facilitated. A large number of prosecutions have been quietly instituted during the summer, and the effect has been to bring speedy and prompt reply to warning letters addressed to others. As a consequence receipts have much improved.

A staff of 10 auditors is being appointed this week to check up the sales taxes throughout the country.

Shortage of Fruit in Saskatchewan.

Regina, Sask.—With fruit more plentiful than ever, both in eastern and western Canada, a shortage is felt in Saskatchewan. All varieties of preserving fruit are hard to get say the wholesalers, and the prices are high. Bananas, for instance, are selling at two pounds for 35 cents.

New York.—Oswald Garrison Villard announced that one hundred representative Americans had accepted the invitation of his magazine, The Nation, to constitute a non-partisan commission to sift charges of atrocities in Ireland made against one another by the British government and Sinn Fein.

The announcement says the "Committee of One Hundred on Ireland," as it will be known, feels that some neutral action is necessary to preserve Anglo-Saxon friendship and to prevent the spread of ill-will with the possibility of such irritation driving the United States and Great Britain into war.

Referring to Anglo-American relations, the invitation says that one grave result of the present situation is the rapid growth of anti-British feeling which seriously threatens the unspeakable calamity of war between the United States and Great Britain and endangers the peace of the world. The program of the committee is not fully developed, but its sponsors suggest that the British government, Sinn Fein, and others be asked to present such evidence of violence or wrongdoing as they possess. The committee, it is said, will designate from its own members, or outside, a small commission to hear testimony and make "a thorough and impartial report."

The committee plans to begin sessions in Washington early in October.

Government Reopens.

Prague, Czechoslovakia.—The Czechoslovak Government has reopened.

W. J. BARRETT, Proprietor.

Blairmore, Alta., Thurs. Sept. 23, 1920

In July a number of complaints against the Peace River Board with respect to settlement in the Peace River District were published.

A committee of four leading citizens of Peace River was appointed by the Board of Trade to investigate the charges. In settlement, board, has refused to settle on the ground that the land was unsuitable for agriculture.

Four individual complaints were investigated by this committee. These were given an illustration of the shareholders' position in which the settler's position in the district are placed as a result of the mismanagement of the board.

The Summer Settlement Board, as a result of these complaints, ordered a re-inspection of the land in question, and the District Director of Lands and Loans confirms the previous opinion in the case of three of the four. In the fourth case—that of Mr. Henry Pfeiffer—the records show that he secured a loan of \$1,500.00 to purchase a truck and equipment on July 26. A previous application from this settler for a loan was declined on the ground that it was not within the regulations.

In the case of G. E. Sutton, the Peace River Board of Trade committee found that he has got at possibilities but a dry proposition until he could clear his land and go in for grain growing. The Board's re-inspection shows that, outside of 25 acres of hay meadow, Sutton's land is practically useless as a farm and entirely unsuitable for soldier settlement. The director gave as his opinion that Sutton would not be able to meet his obligations by farming.

In the case of Frank Norris, the Board of Trade report stated that the land offered the same opportunities for dairying as Mr. Sutton's, "except for the want of hay" but in order to overcome this he is sharing Mr. Newman's hay permit. The District Director of Lands and Loans said it would be possible for Mr. Norris to make a living by any scheme of farming possible in Alberta and repay his indebtedness to the Board. Almost the whole of this land is covered with heavy growth of green poplar; there is no hay land and very small patches of timber. The soil is very thin and over most of the land the gray clay comes to the surface.

The Board of Trade found the farm of Joseph Adamson similar to the half-section of Mr. Sutton's. At the time his case was investigated, he was not qualified to receive a loan. The director reports the soldier grant to be practically worthless as a farm, being generally low and covered with stumps, fallen trees and some standing timber.

This disposes of the four cases investigated by the Board of Trade.

Publicity has been also given to the case of Oscar F. Williams whose loan was declined. The District Director of Lands and Loans reports this half-section altogether unsuitable for soldier settlement and on August 6 Mr. Williams wrote the board stating: "I am now convinced from the present showing of crop that the land is not suited for the purpose I wish to use it. In view of these facts, I feel that the Advisory Board were perfectly right in refusing to grant a loan under these conditions."

With regard to the claim that the appraisal reports of the Board's inspectors are inconsistent with the classification maps of the Department, it is stated that lands which are suitable for immediate settlement are colored "pink" on the classification map while lands shown in "green" have suitable soil, but are nevertheless unsuitable for soldier settlement, owing to the improvement required. None of the farms in question is colored pink on the department maps.

The Peace River Record of July 26 contained a criticism of the Board along lines similar to the above. It mentioned two farmers, Mr. Urquhart Adams and Mr. Berkley Nelson, returned soldiers who had produced some fine samples of garden vegetables and wheat "which could not be excelled anywhere," and stated that loans on these farms had been turned down by the Board. It appears, however, that both Adams and Nelson are settlers under the Act. Adams was granted an initial loan of \$1000 on November 2, 1919 and Nelson was granted an initial loan of \$1800 on September 29, 1919. Mr. Nelson has on more than one occasion written to the Edmonton office thanking the Board for assistance given, so that this "charge" is not a very serious one.

Joak Palmer reports that he flew from Cowley to Lethbridge in thirty-four minutes at a height reaching Lethbridge of 8500 feet.

TAX SALE

Sale of Land in the
Town of Blairmore,
for Arrears of
Taxes

NOTICE IS HEREBY GIVEN that certain lands in the Town of Blairmore will be offered for sale for arrears of Taxes and costs at the Town Office, Eighth Avenue, Blairmore, on Tuesday the 9th day of November, 1920, at 10 o'clock in the forenoon.

A full list of the said lands will be found in the Blairmore Enterprise issues of September the 10th and 23rd dates.

Unless the arrears of taxes and costs be sooner paid, I shall proceed to sell the said lands at the time and place above mentioned.

Dated at Blairmore the 14th day of September, A.D. 1920.

Navy League Arrange A General Campaign

The Navy League of Canada is arranging for a general appeal for funds to help them in their work throughout Canada during the month of October.

Already over 604 committees have been arranged for in Alberta. The work will be in charge of J. A. Irvine, assisted by Capt. Harper, who is coming west to help in the province of Alberta. It is also expected that Admiral Beattie will address a number of meetings in interest of the League.

The Navy League has already done good work, not only in Canada, but Overseas. Their work among the boys, through the Naval Brigades is increasing by leaps and bounds, their year between five and six thousand were given special outings and instructions. In Alberta over 120 had the privilege of attending the Summer Camp at Sylvan Lake, and the good derived by the boys cannot be estimated.

The League is erecting a new Sailors' Home at Halifax, N. S., costing over \$350,000.00; Prince Edward Island \$25,000.00; Vancouver \$65,000.00; Sydney, N. S. \$25,000.00; a grant was given by the Montreal Institute of \$100,000.00; The Catholic Home at Montreal \$80,000.00; Seamen's Institute at St. John, N.B. \$50,000.00; Catholic Sailors' Home, Quebec City \$10,000.00; Lighthouse Home for Merchant Sailors, Surrey, England, £200,000.00; Dr. Grenfell's Mission, Labrador \$50,000.00; Royal Arthur Institute, Port Arthur, \$12,000.00; Seamen's Missionary Institute, St. John, N. B. \$50,000.00; Mercantile Sailors' Rest, Malta \$2,500.00.

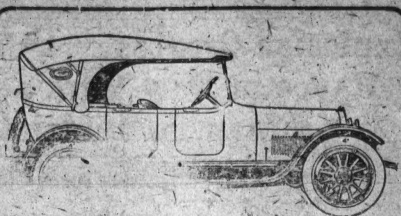

Other grants given for various Seamen's relief work; Navy League in London for general work \$9,702.78; King George's Fund for Sailors \$313,136.40; Navy League Overseas Relief Fund \$172,000.00; Navy League Overseas Relief Fund \$216,000.00; British and Foreign Sailors Society \$12,500,000; Grant to the families of the Sailors in the "Princess Sophia Disaster" \$5,000.00; Prisoner of War Fund \$4,819.91; and besides this, a considerable sum was spent by the various provinces to carry on the work among the boys of Canada. Between 800 and 1000 boys whose fathers were killed during the war, are receiving educational advantages through the work of the League.

This work should appeal to every man, woman and child in the Province. Blairmore has been asked to contribute the sum of \$50.00 and this amount should be easily raised. The following local committee have been asked to assist: J. G. Egan, chairman; Frank Wright, W. A. Beebe, J. A. MacDonald.

German Paper Suits Cheap

WASHTON, Sept. 14—Paper suits imported from Germany by the department of commerce will go on an exhibition tour of the country starting Wednesday. Representatives of the bureau of foreign and domestic commerce in principal cities are to show the suits, which cost from 15 cents to 22.50 to manufacturers and clothing firms.

Samples of the paper suits were imported

The Greatest of All

Hillcrest Happenings

(By Felix)

Rev. Mr. Newman will move a house here from Hosmer.

Andy Leeson exhibited a new vegetable, which he named Cogua-Cola.

Mr. and Mrs. John Mackie have taken up residence in the house lately vacated by Mrs. Harris.

Hillcrest Juniors defeated Bellevue by 2 to 1 at football on Saturday. Harry Fisher acted as referee.

Mrs. Herchmer, of Marvaville,

is spending a few days with her brother, John Dudley, Princess St. Peaceful Valley.

Frank Pearson, an old-timer, returned recently, has purchased the house lately driven in from Frank and intends making his home here.

According to information, Ed. Royle and Percy Salt are open to play any two in the series of friendly games of whist. Mr. Stuckley and his partner preferred.

Mr. and Mrs. John Dudley gave a winter party at supper in honor of Mrs. Herchmer. A most

enjoyable time was spent until the wee hours of morning with music, games, etc.

At the whist drive and supper given by Mr. and Mrs. Prescott in honor of Mrs. Herchmer's visit, the prize winners were: first prize—Mrs. Mackie and Percy Salt; booby—Mr. and Mrs. Ed. Royle.

If several parties had taken to the exhibition the cows and pigs that got into certain gardens and devoured everything it would have been some exhibition. It's about time the pound-law was introduced. Of course, many people are satisfied with a gentle "I'm sorry" in payment for the damage done.

Since the arrival of a resident Methodist minister, the attendance at the Sunday school and evening services is increasing by leaps and bounds. On Sunday last 107 children were in attendance at Sunday school, while for the evening service the church was packed. A new organ is badly needed. The church is being fittingly decorated with fruits and vegetables for the Thanksgiving Service.

The first flower and vegetable exhibition to be held in Hillcrest took place on Saturday at the Masonic hall and can be summed up in two words—Complete Success. The ladies' classes were a revelation in fancy needlework, bread, cakes and pies. It is impossible to give a full list of winners, but sufficient to say that if this is going to be an annual affair (and by all accounts it is), then, every hall in Hillcrest will have to be engaged for that day. But, for a starter, it was a "bumdinger" and reflects great credit on the promoters. Bellevue is jealous already, and well they might be. Hillcrest in the future is not going to be satisfied with walking over to the other side of the valley to see an exhibition of their own products, but are going to be on the map. A visitor very well suggested that

classes in live stock would be a worth while attraction for the next exhibition.

Cowley Happenings

Roy Fischer of Calgary, was a district visitor this week.

Messrs. Filiatrault and Cyr have purchased a new separator and are getting ready to thresh their wheat crop.

Mrs. Cecil Elton, Miss Doris Elton and Miss Kemmis were Calgary visitors on Tuesday. Miss Doris remains in Calgary for some time.

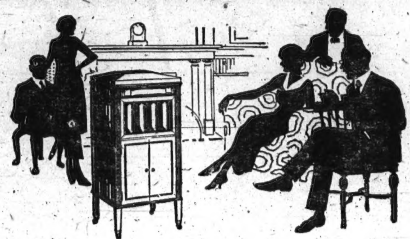

With the exception of wind, the weather for the past week has been favorable for threshing and the work will soon be general. Some new wheat has already been delivered to the local elevators and grades No 1.

Mrs. Nellie McClung lectured in Tustian's hall, Cowley, last Friday night to a large and appreciative audience, her subject being social reform and the liquor question. A campaign committee was organized after the lecture.

Funeral services for the late James M. Easterbrook were held in the Presbyterian church on Saturday, the 18th, Rev. Mr. Wilkinson, of Pincher Creek, officiating. Interment took place in the Cowley cemetery, the arrangements being in charge of the local Masons, of which order deceased was a member. Grand Master Kemmis conferred the last rites.

"Back to God's Country," one of the most thrilling humane pictures ever produced, will appear at the local opera house on the night of Wednesday next. Don't miss it.

The application of Elizabeth for separation from O'Neill has been granted without entering the courts. "Lizzie" will in future reside at Hillcrest.

While the Family Sits Around

On quiet evenings or afternoons, put on your favorite records. Play any selection you wish. Be sure to play some of mother's favorite old-time songs and one or two of dad's familiar ballads—play them all on your Columbia Grafonola.

You will get reproductions of exactly what the artists themselves produced on the original wax. Every note, every tone is distinct. The Columbia tone leaves give you complete and accurate control over tone volume without sacrificing tone quality or any of the beauty of your choicest records.

Then there's the Non Set Automatic Stop—no other phonograph has it—built right into the motor. Invisible. Nothing to move or set or measure. Just start your Grafonola, and it plays and stops itself.

Ask us to play these Columbia Records for you:

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms, Burned
Badly, Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were scattered all over me, and itched terribly at times, and I scratched them, causing them to fester and get some. Sometimes they would dry away and form scales which burned badly."

"Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Ointment together with the Cuticura Soap." (Signed) Miss Martha Keas, Russell, Manitoba, February 19, 1919.

Use Cuticura Soap and Ointment for all itchy purposes. Soap to cleanse, Ointment to soothe. Get Cuticura Soap and Ointment at all drug stores. Cuticura Soap alone without mess.

Love of The Wild

BY
ARCHIE F. McKISHNIE
Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

"That's the story the sailor told me," he said grimly. "I've been thinking of that poor woman all day. Poor little thing—such a dying animal—strangers. And that man—think of what he did, Smythe. Could you imagine any man being so inhuman?"

Smythe sat huddled up on his chair.

"How long ago did this happen?" he asked.

"It was nineteen years ago; maybe twenty. There's no doubt about the baby being dead long ago. Of course, the Indian would reason that it was less trouble to let the baby die than it was to keep it alive."

The Colonel looked at his hands behind him and paced up and down the room. He paused before Smythe at last and looked down upon him with misty eyes.

"I guess I'm not very well," he said with a short laugh. "—why, this thing happened twenty years ago; and maybe after all the sailor was lying."

Mr. Smythe raised his head.

"Sailors have a habit of lying," he agreed.

The door opened and Sambo burst into the room.

"I put de boss into de stable, Mas'ar Smith," he cried.

"Why, who had your horse, Smythe?" asked Halibut.

Smythe's next eye shifted from the big man to Sambo.

"I loaned her to—Alexander Wilson this morning," he faltered.

"That's funny," replied the Colonel. "I met Wilson driving a span of oxen as I was coming here. Say, Sambo, feed two dogs, like a good fellow. I want to push out."

Half an hour after the foot-beats of Halibut's horse had died away, Watson crept into the room. He was breathing heavily and his swarthy face was drawn and haggard.

Mr. Smythe wisely asked no questions.

The agent sank into a seat before the fire. He sat fumbling in his pocket and from it finally drew out a leather wallet. He opened it and extracted from it a photograph. He held it out in a sickening hand and looked at Smythe.

"I've hung on to this," he faltered; "because you thought we ought to keep it—because you thought if the baby was alive we might know it from this likeness."

Smythe nodded, and Watson leaned forward and put the photograph in the red coils.

"You were right," he shivered. "I found it. I found it to-day, and I knew it by that likeness of my mother. Yes, I found the girl, Smythe."

Smythe glanced at the picture at the snoring Sambo in the corner.

"Where was she?" he asked in an awed whisper.

Watson did not reply. He picked up the poker and bent above the fire. The barometer had soared in the coils lay there charred and curled.

As he gazed upon it, fascinated, a little baby name sprang out and kissed

it to glowing life so that from it a face flashed out, sweet, glad and triumphant. Then a breeze from the Wild swooped down the wide chimney and carried it away.

CHAPTER XI.

The Wild of the Wild.

Colonel Halibut rode the lone trail, his hounds at his heels. A spent moon dragged across a spiteful, crumpled sky, low down above the fringe of ravished forest. The wind had died, and the night was still, except for the calls of the forest things that voice their woe, and 1924 at night. There were the low 'whoohoo' of the owls, the 'perri-perri' of night-hawks and away far away toward the westward came, now and again, a fluted call dying in a wail that bespoke the lynx's unsuccessful stalking.

Deeper down in the forest a stray timber-wolf called hopelessly to a wandering pack. And the call was answered faintly, but clearly, far above; then a new note came into the strayed voice's yelp was sharper, clearer than before.

Colonel Halibut rode on, his head low and his rifle thrown across his saddle-pommel. Occasionally his lips moved and he sat erect with a jerk.

"Hate me, do they?" he mused. "I wonder why I should care? I am growing old and fat, I guess. Thank God I have my dogs—and a dog is a true friend."

The thin moon dropped down behind the heavy fringe of the night blackened as the trail narrowed.

"I don't know but I've made a mistake in making Watson and Smythe my agents," thought the man. "I can't trust either of them, and—"

From far ahead there came again the low, low cry of a wolf; not the undulating cry, but the long-drawn, unvarying note that bespoke the rejoining of the pack. Halibut lifted his head and half-cried in his horse.

"Howl, you devil," he cried. Then he slapped the horse's neck with the rein.

"If it were midnight now," he soliloquized, shrugging his shoulders, "I wouldn't just feel safe in this road boldly on."

Miles of the trail still lay before him—miles of lonely land. But the man was insured to the Wild; he had ridden the trail many times before. Still the life had taught him caution.

He knew that in mid-winter, when the timber-wolves grew fearless and were bad company. In winter he would not have ridden the trail alone on this trail alone. But it was barely autumn now, and he gave himself not the slightest thought of danger, but rode boldly on.

The Colonel was the big man of his particular day. The village of St. Thomas, miles onward, he practically owned, as well as the greater portion of the partly cleared land surrounding it. St. Thomas was simply a drab-colored blotch on the Wild as yet, but the lake lay close to it and its natural resources promised to make of the half-cleared country about it a great land some day not far future.

Halibut owned the grand home of the country-side; a big, rambling house of plastered blocks with wide rooms and mild hardwood floors. It sat on the crest of a hill among a grove of burr-oaks, and near it stood the stables and kennels, famous far and near.

Horses were a rarity in those old days, but in Colonel Halibut's stables were some of the best blood-horses of the time. He loved riding and he loved the chase. Being of English birth he had adopted the customs of his homeland and carried them to the limit.

His stables contained bits, ale, beer and choice wines. He loved to sit beside his wife fireplace with his long pipe alight, a song at his elbow, and hounds snoring about him, and there dream, with his pets, of the events of the day's chase. He was a power in his land. No man dared to gainst his command. He loved more money-power; he resented the law as well. He was a monopolist. He had secured land for the asking, and for a million acres he had secured land for a million acres.

He owned thousands of acres of prime hardwood land, a small fortune, provided there were facilities for shipping the timber. Halibut owned the facilities in the shape of a trim schooner, which he now felt he could use to advantage; for he had long realized the wealth resident in those beautifully timbered ridges of the Bushwhackers. Having seen the great maple and birch, the magnificent walnut and the yellow and black and white oak, now worth many dollars a thousand, Halibut was willing to pay a good price for the timber.

He had purchased a strip of timber along Lee Creek across from the Bushwhackers, and erected a portable mill there.

In order to show the Bushwhackers the big man had built them a school-house and supplied a teacher for it in doing which he felt that he had been actuated by pure magnanimity, without thought of gain.

But the Colonel was finding out that the Bushwhackers resented his advances of friendship, and he wondered why. Now they were threatening him, and they must learn that he did not fear them.

The Colonel had never married, but kept as his housekeeper an old-country woman of advanced years. Her name was Dora, and her youngest son, Dick, lived with them and looked after the kennels and stables.

Auntie was supposed to be the people in village, and country-side. Colonel Halibut was in reality a man of great and generous impulses. He was a user of reserve for his heart resented a painful little story—pitiful, because so simple.

(To be Continued.)

Matrimony frequently resembles a besieged city—those who are out want to get in, and those who are in want to get out.

Cure That Cough Today —Without Medicine

Easily Done By Breathing In the
Healing Fumes of
Catarrhazone.

No medicine brings such prompt relief, exerts such an invigorating influence, or is so thoroughly and speedily cures throat troubles as "Catarrhazone." Doctors, hospitals, sanitariums all say that for those who suffer from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness, or bronchitis, no treatment is so indispensable as "Catarrhazone."

For certain cure, for relief in an hour, use Catarrhazone, the only direct, breathable medicine. Two months' treatment guaranteed, price \$1; smaller size 50¢, sample size 25¢, at all dealers everywhere.

Tree Planting on
The Prairies

Properly Prepared Soil is a Strict
Essential.

Despite the extensive publicity which has been given to the advantages of planting shelter-belts on the prairies, and to the assistance offered by the Dominion Forestry Branch to farmers who wish to establish them, there is still misapprehension in regard to the methods to be followed.

The Forestry Branch distributes annually, free of charge, about 5,000,000 trees and seedlings. Each applicant is given sufficient trees to plant about half an acre annually if he follows the methods which experience has shown to be necessary for success.

When planting a shelter-belt, care should be taken to so locate the trees that they will protect the home and stock from prevailing winds. Sufficient space should be left between the shelter-belt and the buildings to keep the snow from drifting around the buildings and to give room for a lawn and garden.

Many failures have resulted from planting on soil not properly prepared, and, to insure as far as possible the success of the trees sent out, the Forestry Branch stipulates that the land be summer-fallowed the year previous to planting.

In order that the planters may have the benefit of personal instruction, inspectors of the Forestry Branch visit each applicant before the trees are furnished.

To secure trees for planting in the spring of 1921 it is necessary that application be made before March 1, 1921, to the Forest Nursery Station, Indian Head, Sask.

A very instructive bulletin entitled "Tree Planting on the Prairies," is issued by the Forestry Branch.

The Other Side.

First Infant—I have a terrible time with my parents.

Second Infant—So do I. Isn't it disagreeable when they want to have their own way?—Judge.

Just a minute, please! Let's get right down to cases—Watch cases

OPEN up an Ingersoll Maple Leaf, you'll see a busy little time-keeping plant in operation, happily, smoothly, accurately functioning—every little movement with a meaning all its own.

Now look the Maple Leaf in the face—it's an honest face and a truthful face. And you can believe what you see there.

After all, the primary purpose of a watch is to keep time. The Ingersoll keeps time and does it under conditions that would send any other watch to the repairer's.

And its sturdiness, dependability, and cheapness aren't obtained at the cost of appearance. The Maple Leaf is really a good-looker.

Agricultural Progress Of Saskatchewan

Stands First in the Number of Horses Owned.

While grain growing, and especially wheat growing, constitutes still the mainstay of agricultural industry in Saskatchewan, other branches of farming have not been overlooked.

The raising of livestock especially has shown a remarkable development during the last few years. Saskatchewan stands to-day at the head of the list of provinces rated according to the number of horses owned in them, with 1,092,974 head, and third in the list according to the number of cattle owned.

Lastly, a marked increase in sheep and swine raising is noticeable. Saskatchewan is fourth among the provinces in swine and seventh in sheep.

Constant effort is being made by the government through the livestock branch of the department of agriculture, and by the various breeders' associations in the province, to improve the quantity of the stock grown in Saskatchewan, with eminently satisfactory results beginning to show.

Under the Livestock Purchase and Sales Act, quantities of pure bred sires and grade dairy heifers are obtained by the branch and re-sold annually to farmers on easy terms.

Through the provincial stallion board, similar efforts are being made to improve the standard of the horses grown in the province.

While cattle raising for the slaughter pens is assuming considerable proportions in the northern part of the province, dairying, as an adjunct to stock raising, occupies a rapidly growing position in the economic life of the whole province.

There were four creameries operating in the province when it was established fifty years ago. At the present time there are 42 creameries in active operation in Saskatchewan, and their output is unsurpassed for quality.

At the educational butter grading competition held in Montreal this year, Saskatchewan butter received the highest score in the May and July scorings, and fell just below it in the June scoring.

At the provincial exhibition held in Regina this summer, a branch of the Saskatchewan Co-operative Creameries, Ltd., carried off the trophy for the best creamery butter, against entries from three other provinces.

Prince Rupert Reduces Debt

Coast Town Had Surplus on Civic Financing Last Year.

The city of Prince Rupert, B.C., reduced its debt last year by \$32,269, it is shown in the corporation's annual statement now issued. This reduction left the total bonded indebtedness of the city on December 31, 1919, at \$1,049,223. The sinking fund was intact, and fully paid in at last date.

There was a deficit for the year on general revenue account of \$19,382, but to offset this profits were earned by the various utilities amounting to \$26,861. The city thus had a net surplus for the year of \$7,478, which was not enough, however, to pay the exchange on a payment of \$80,352

due on the city's bonds, and payable in New York on April 1, 1920.

Taxes levied for general purposes during the year amounted to \$175,697, as compared with \$154,594 in 1918. Local improvement levies amounted to \$59,186. Total collections, including arrears, were considerably over the sum of these two amounts, and uncollected taxes at the end of the year were reduced from \$196,250 to \$172,742, which includes both general and local improvement taxes.

Exhibit of Paper Clothing

Garments are Cheap and Declared to

Be Washable.

Paper clothing and other articles

made in Austrian factories were placed

on exhibition in Washington by

the Department of Commerce. Lat-

er the exhibit will be offered to cloth-

ing and other interested manufactur-

ers for exhibition.

The exhibit includes workmen's

shirts, a table cover, collared shirts,

a laundry bag and a wall decoration.

One paper suit is quoted at 32 cents,

or about 15 cents in United States

currency, while another sells for 120

cents, or about 55 cents. In the ex-

hibit is also a suit made of 40 per

cent paper, which in Austria sells at

\$75 cents, or about \$265 in Ameri-

can money at the present rate of ex-

change. According to officials of

the department the garments are wash-

able.

The Beauty of a Clear Skin.—The

condition of the liver causes impurities in the blood

and these show themselves in blem-

ishes on the skin. Parment's Veget-

able Pills in action upon the liver act

upon the blood and a clear, healthy

skin will follow intelligent use of this

standard medicine. Ladies, who will

fully appreciate the value of these

pills, can use them with the certainty

that the effect will be most gratifying.

Growing Northward.

The Canadian Customs Department

is going to establish a station at Port

Burwell, Hudson's Bay. A steamer

recently left Halifax, N.S., with police

and Customs Officers. They intend

to remain at Port Burwell for two

years after their arrival.

The Curriculum

Superfluous Studies that Could Profit-

ably be Dispensed With.

Some day a daring creature will

atrise and thrust a number of school

studies into the waste basket. It has

been said that a school or college

education simply teaches the art of

reading or writing. There are super-

fluous studies; there are subjects in-

structious and desparately painful

which will never be worth a brass

farming in the after life. But au-

thoritative persons are wedded to the

conventional curriculum; and it will

need tremendous daring on the part

of this forthcoming iconoclast to eli-

minate the things that are worthless

and give prominence to those which

are close to life and effort.—Montreal

Gazette.

Wives and Mothers Need Not Have Sore Backaches

Constantly on their feet, attending

to the wants of a large and exacting

family, women often break down with

nervous exhaustion.

In the stores, factories and on a

farm are weak, ailing women, drag-

ged down with torturing backache

and beating down pains.

Such suffering isn't natural but it's

dangerous, because due to diseased

kidneys.

The dizziness, insomnia and other

symptoms of kidney complaint can

cure themselves, they require the as-

sistance of Dr. Hamilton's Pills

which go direct to the seat of the

trouble.

To give vitality and power to the

kidneys, to lend aid to the bladder

and liver, to make the blood of mor-

ons, probably there is no remedy so

successful as Dr. Hamilton's Pills.

For all women and irregularities their

merit is well known.

Because of their mild soothing and

healing effect, Dr. Hamilton's Pills

are safe, and are recommended for

girls and women of all ages. 25c

per box at all dealers. Refuse any

substitute for Dr. Hamilton's Pills of

Mandrake and Butternut.

The House Shortage

Will "Build Now" Settle the Housing

Problem?

The housing situation, while of a

general nature, is really a personal

and individual matter, and one upon

which the man who is up against it

must face and eventually decide.

The present house shortage has

many causes. Chief among these is

the permanent resident who is re-

siding in a home, who has no place to

call his own and who must add to

the general flurry of finding a place to

live in along with the man who has

just arrived in the city.

The permanent resident. The one

who calls this his "home town" and

who takes a community pride in the

district in which he lives—yet rents

his home—pays out each month his

hard earned money—he is the man

who is not adding to the community

welfare, or making himself a worthy

citizen—he's losing out on the great

fundamental of citizenship—own-

ership.

The housing problem is therefore

very much of an individual matter

and resolves itself to your own con-

dition and desires.

"Build Now" will certainly settle

your own particular housing problem

for all time. It will give you a bet-

ter standing in the community and is

so much more economical.

What is meant by "Build Now"?

It is a slogan that every lumber dealer

thoroughly understands the mean-

ing of and has prepared himself with

plans, working drawings and full par-

ticulars relative to building a house

and Building Now.

The Best Farm Magnet.

In an interesting article on the

farm labor shortage, H. G. Weaver

says:

"The way to keep the boy on the

farm is not to try to keep him there

at all. The thing to do is to make

him like the farm, and the only way

to make him like the farm is to make

the farm likable and then prove to

him that it is likable. After that he

has done you needn't worry about

keeping him there—you couldn't pull

him away."

Quite true. "But," asks one, "how

are we going to make the farm lik-

able?" Principally by making it

profitable. Once farming is put on

a business basis; once our farmers'

organizations take the speculation

out of the situation and if the mar-

ket for farm products, we will not

have to worry about keeping the boys

on the farm.

Miss Vanity is Very Old

Ancient Egyptians Extravagant in the

Matter of Toilet Requisites.

The Egyptian belle of 5000 B.C.

was no less extravagant in the mat-

ter of toilet requisites than is the beauty

of today. She required among other

things, a long stone palette with a

hollow in the centre, in which to mix

her green eye-paint. This palette

also held a very delicate sea-shell,

wherein she mixed the paint with the

necessary grease for stiffening her

eyelashes; ivory hair-pins which pre-

sented in length the hair-pins of the

present day, and quaint ivory combs. All

these articles were shown at an exhibi-

tion in London of the trophies dug

up by the members of the Egypt ex-

ploration fund. There was also a

small red clay of a face, with green

paint bringing the eyes into extra-

ordinary prominence.

The housewife of seven thou-

sand years ago had household goods

similar to those of the housewife of to-

day. She had copper pans and

strainers, stone blades, wooden bowls

and copper mirrors, and to decorate

her home she acquired alabaster vases

and painted pottery vases.

Demand for New Saving Certificate.

Seven months' sales of new form of

savings certificates total two and a

half million dollars. The certificates,

which replace the war certificates, are

issued in denominations of \$5 and up,

yield the investor 5 1/2 per cent. In-

terest and are obtainable direct from

banks and money order post offices.

Minard's Liniment for sale every-

where.

Apple Crop in Quebec.

It is estimated that the apple crop

this year in the Province of Quebec

will total 100,000 barrels, or more

than 25 per cent. increase over last

year's production. The quality of

the crop has never been better.

Fortunes in Fish.

It is estimated that the salmon

pack in British Columbia will be

worth \$12,000,000 this year. The

runs have been particularly good in

the Fraser River and in the rivers of

the Northern part of the Province.

Easily Maintained Through the Use

of Dr. Williams' Pink Pills.

There is not a nook or corner in

Canada, in the cities, the towns, the

villages, on the farms and in the

hives and lumber camps, where Dr.

Williams' Pink Pills have not been

used, and none can find the com-

fort to the other they have brought

back to broad-winners, their wives

and families the splendid treasure of

new health and strength.

You have only to ask your neigh-

bors, and they will tell you of some

feeble or nerve-shattered man,

some suffering woman, ailing youth

or anemic girl who owes present

health and strength to Dr. Williams'

Pink Pills. For more than a quarter

of a century these pills have been

known not only in Canada, but

throughout all the world, as a reliable

tonic, blood-making medicine.

The wonderful success of Dr. Wil-

liams' Pink Pills is due to the fact

that they go right to the root of the

diseases in the blood, and by making

Of Local and General Interest

Mar Poy was a visitor to Etz kom and Foremost this week.

Miss Doyle arrived from the east on Monday morning, to take a position as stenographer in the office of Mr. J. E. Gillis.

Dr. and Mrs. O. Lillie are due to arrive from an extended holiday trip through eastern Canada and the States.

Cranbrook's city council has been authorized to buy the privately-owned electric light plant in that town, at a cost of in the neighborhood of \$60,000.

Mrs. John Koentges and family wish to thank all those who showed their sympathy by floral offerings and attendance at the funeral of their beloved husband and father.

WANTED TO PURCHASE. In Blairmore, suitable locality, a good five-roomed house with modern conveniences. State locality and price. Cash paid at once if suitable. Apply Enterprise.

Le Droit, Ottawa's French Canadian daily, says that Bishop O'Leary, of Charlottetown, is to be the new archbishop of Edmonton to succeed the late Archbishop Legat.

"Mac" McRae, after relieving the local C. P. R. agent during the latter's summer vacation, left here on Friday night last for Stavely where he will perform similar duties.

Ed. Royle, superintendent of the mine rescue car No. 1, wishes to inform all concerned that whilst the car is away for painting and general repairs, the rescue station is at No. 6 Company House, at Frank.

"Very Good Eddie," a side-splitting comedy in four acts, with Sarah Glibney, William Springer and a Coleman cast of local talent at the Blairmore opera house, Thursday, October 7th.

A fellow named Nick Gillof, claiming that his picture was used by mistake for Akroff's, is in town this week. Gillof is working at Coleman and there is little doubt but that the picture was his.

In an effort to end the illicit distilling of intoxicating liquor, the treasury department at Washington decided to tighten the regulations around the sale of stills and add another check to its means of tracing down their users.

Mr. Richards, the recently-appointed superintendent of technical education for the province, was in Blairmore and Coleman during the week, conferring with members of the school boards and others interested in night schools.

It's a fact that the past few weeks have been exceptionally "dry" in the Crows' Nest Pass, but immediately H. H. Hull, W. H. Day and other "dry" advocates entered the district today the climate became "wet."

"Very Good Eddie," a side-splitting comedy in four acts, with Sarah Glibney, William Springer and a Coleman cast of local talent at the Blairmore opera house, Thursday, October 7th.

Registration of voters for the forthcoming by-election on the interprovincial trade in liquor closed at the office of W. A. Beebe at 9 o'clock on Saturday evening. There was a very small percentage of registrations.

Dr. A. H. Baker, who for the past year or more has been medical officer in charge at the Frank-Sanatorium, left this week with Mrs. Baker for Keith, where he will hold a similar position in a new hospital institution which is under control of the department of militia and the provincial government.

Do you like dancing to jazz or jazz music? Then don't miss the dance after the show on Monday night. Everything from jazz to classics. Shimmie up, boys!

Blairmore Wins the Cooper Cup Final

The opening scene was a bright, clear and sunny day, with a field that was perfect in every detail. At 3 p.m. one thousand fans, with their very conspicuous colors of black and red, arrived on the field looking 100% efficient, with determination to win written all over them in capital letters.

At 3:30 p.m. the schedule time having arrived, this remark was heard on all sides: "Where is the Fernie team?" Late as ever. At 3:45 the Fernie Bluffs arrived, amid loud cheers and much applause played by the Fernie city band; last but not least, a lone Scotish laddie with his bagpipes played with tremendous gusto that would do justice to Robbie Burns.

The captains of both teams held a short conference on the field, after which the coin was tossed. Fernie cried for tails. It came down heads which gave our boys the advantage of having the sun behind them during the first half of the game. Positions were taken immediately as follows:

Blairmore	Fernie
Whitlaw	goal
Turner	right back
McAndrews	left back
McVey	right half
Ramsay	centre half
Mulligan	left half
Mills	outside right
Hardie	inside right
W. Lanning	centre forward
T. Johnson	inside left
H. Lanning	outside left
	Davidson

It was Fernie's kick-off, and from that moment the game was fascinating. It was plainly seen from the start that Blairmore was the best team on the field, the ball being played around Fernie's goal most of the time. Now and again, one of the Fernie bluffs would get away with the ball, only to be intercepted by McAndrews and Turner, who did some remarkable playing throughout the game.

Hardie, who played quite a sensation during the first half of the game by getting through Fernie's defense, though strong, and making a shot at the goal which was well stopped by the Fernie goalkeeper. T. Johnson had the misfortune to miss an almost sure goal by a shot which was intercepted by McAndrews. Mills lost a considerable amount of ground through a Fernie player coming into contact with his nasal organ. The two Lanning boys were like lightning streaks during the whole game. W. Lanning received a painful kick in the side during the first half when stopped the game for ten minutes, after which he went in more determined than ever. The whistle blew "full time" after one hour and fifteen minutes playing, and so score was scored. After ten minutes rest the game was resumed. This time Fernie had the advantage of having the sun behind them. The game now was away from one end of the field to the other. One could hardly tell whether the players had played the first half or not. They appeared to be as fresh as ever. Mulligan received a painful kick on the ankle, which left him hors de combat for five minutes. Ramsay also performed a remarkable feat in the air after coming into contact with Fernie's centre half. Fifteen minutes before the game finished, W. Lanning received a severe wrenching of the neck muscles, which caused him to be removed from the field by a local doctor. The game was resumed with one Blairmore player short. After playing ten minutes, W. Lanning received a painful kick on the ankle, which left him hors de combat for five minutes. Ramsay also performed a remarkable feat in the air after coming into contact with Fernie's centre half. Fifteen minutes before the game finished, W. Lanning received a severe wrenching of the neck muscles, which caused him to be removed from the field by a local doctor. The game was resumed with one Blairmore player short.

During the whole game, eight shots to the goal were stopped by Whitlaw, Blairmore's goal keeper; and thirty-seven shots to the goal were stopped by Fernie's goal keeper, one getting by being the good one. Therefore, ended one of the hardest football games ever played in the Crows' Nest Pass. The game was played absolutely clean from beginning to end on both teams.

Special mention must be made of the referee, Mr. Wilson, who was fair and just to both sides, neither giving or taking.

The spectators would number fifteen hundred, the largest crowd ever known to witness a game in Fernie.

AN OBSERVER.

Remains of Mrs. Green Are Laid to Rest

The funeral of the late Mrs. Reuben Green took place on Saturday afternoon last and was very largely attended. Owing to the inability of Rev. J. F. Hunter to be present, as requested by the deceased lady, funeral services were conducted at the home and Union church by the Rev. W. T. Young. Many beautiful floral offerings adorned the casket, including wreaths from Mr. and Mrs. A. Morency, Mr. and Mrs. F. M. Pinkney, Mr. and Mrs. M. Joyce and the several local branches of the I. O. O. F.; also one from the family.

Among the relatives in attendance were two daughters, Mrs. Rhodes, of Blairmore, and Mrs. Northwick, of Lundbreck; sons William G. Green, of Lundbreck; G. W. Green, of Calgary; H. P. Green, of Leithbridge; and R. C. Green, of Blairmore. Mrs. G. W. Green, Mrs. H. P. Green and Mrs. Alfred Rhodes, of Lundbreck, were also in attendance.

The remains were laid to rest in the Blairmore Protestant cemetery. The relatives desire to thank all friends for kindness and sympathy extended to them in their bereavement.
